

## Bezzera Hobby espresso machine

### Description

**Bezzera Hobby** features a polished 304 stainless steel body or a powder-coated matte black finish to compliment any décor. With the boiler mounted directly to the brew group, heat-up time is fast and there is virtually no heat loss while delivering perfect espresso.

**Hobby** delivers surprisingly powerful steam pressure through its multi-jet cool-touch steam wand, steaming milk for cappuccino or lattes up to 4 times faster than similar machines. It boasts a very quiet pump, and its heavy industrial-grade components mean it can last years longer than most other machines in this category.

- ✓ 58mm commercial brass portafilter + "saturated" brass brew group for rich hot espresso
- ✓ 3-way solenoid valve instantly releases pressure from group for dry coffee pucks and fast re-use
- ✓ Full-motion "cool-touch" steam wand with twin jets for the faster steaming
- ✓ .25 litre brass boiler with 1100 watts ensures brew temperature stability and the most powerful steam pressure in the single boiler espresso machine category
- ✓ Hot water button manually fills (primes) boiler or dispenses hot water for a small tea or Americano
- ✓ Large 3 litre water reservoir with sight window to monitor water level
- ✓ Cup-warming surface on top

### Optional Accessories

Rosewood Portafilter

Colour Choice

Brushed Stainless Steel
